

A Large Textile Organization

About Client

A well-diversified group with an ascertained footprint in Chemicals, Textiles and Consumer Products segment. Its Textiles operations is an integrated vertical set up which commences right from spinning of fiber (yarn), weaving, dyeing, printing till the finished products. Consumer Products operation is another business where it is a leader in manufacturing and selling Edible salt, Industrial grade salt and Honey

Opportunity/ Problem Statement

- Cotton Bale Procurement and the valuation was one of the main challenges considering the weight of the cotton bale varied from Supplier end to Material Inward.*
- Different Bale weights and their consumption tracking for Production (Mixing Stage) was one of the main challenges*
- Traceability and tracking of these bales. Serial number wise consumption of bales was required to be monitored*
- Voluminous Machine Parameters had to be interfaced with Production Order Confirmation.*

Solution

- Implementation of SAP FI, CO, MM, SD, PP, QM, FIORI and DMS modules on S4 HANA 1610*
- Utilization of Solution Manager efficiently in implementation*
- Provided business solution for their diversified line of businesses - Yarn Manufacturing, Salt processing and Manufacturing, Trading of Spices and Wind power generation*

Benefits

- Automated the Bale wise Serial Number generation and Bale wise weight tracking and monitoring tool. This has helped Customer in tracking the Bale consumption (in weight) /Supplier/Quality Parameters at the time in Production*
- The yield confirmation for different machines differed based on the fixed and Variable parameters. An out of the box solution to automatically calculate and post the Yield confirmations for the respective departments based on the machine parameters*
- Reduction in manual intervention by Over 40% due to automation in confirmations.*
- Profit Center wise accounting helped in monitoring the transfer price mechanism and profit center wise profitability*
