

Leading Engineering Organizations

About Client

One of the leading engineering organizations in India well known for its expertise in providing engineered products & services. An epitome of quality, precision, and perfection, driven by an unrelenting desire to excel with experience spanning over three decades, excellence began in 1988 with an installed capacity of 30,000 MTPA to manufacture Cold Rolled Steel Strips (CRSS). Our decision catapulted us from a start-up to a profitable organization in the very first year of our operations. They are the market leaders in terms of capacity and variety of profiles with a production capacity of 240,000 MT per annum with a significant footprint all across Asia.

Problem Statement

- *Data insecurity and Multiple planning environment and hence no optimization.*
- *No Audit Trails were available in existing system and No centralized Quality Test plans and procedures*
- *Limited visibility was a major concern with complete transaction traceability • Batch traceability not available*
- *Redundant Master data and less inventory control and reduction in inventor*

Solution

- *Implementation of SAP ERP 6.0 modules*
- *Divisions – CRSS / CRFS / ECD / Tubes / Fabrication*
- *SAP Modules: FI, CO, MM, SD, PP,QM, PM, PS, CIN, DMS, BI, SOLMAN*

Benefits

- *Master Data redefined and existing data cleansed. Data duplications/redundancy eliminated.*
- *Eliminated posting of duplicate transactions*
- *Training provided to the identified SAP users to the highest levels of user comfort.*
- *Visibility in to inventories online and hence reduction in excess purchase expenses leading to lesser carrying costs. • Real time Information and Quick Decision Making*
- *Centralized Planning across the plants within the organization.*
